

Let's meet!

Hello! Let me introduce myself. I am Marc and I am your barman at the rooftop bar of Estrella Nocturna. I have several years' experience in bartending in and around Bodano. I always loved nature and doing cool outdoor activities in the mountains like rock climbing and canyoning.

As the sun begins to set, I prepare for another evening at the Estrella Nocturna Rooftop Bar. I arrange my tools, polish the glasses until they shine, and gather a variety of fresh ingredients, ready to create flavourful drinks for the guests who will soon arrive.

Once the bar opens and you as guest slowly start to arrive I see that the evening will start and I always look forward to serving you. I hope you will recognise my enthusiasm. I will attentively listen as you describe your flavour preferences and mood, eager to tailor my creations to suit your individual tastes.

Apart from my mixing skills, I also love to tell story's. I share anecdotes about hidden trails, stunning waterfalls and tell more about local wildlife. With this, I hope to inspire guests to explore the mountain landscape beyond the bar's borders.

If I can give you one big tip then please go canyoning in the summer times. The lakes are so peaceful and super clean. The company 'Waterfall' has really nice boats and very clear constructions. They provide several kinds of routes from small to large and from quiet to more adventurous. You can ask my dear colleagues from the reception to help with making a reservation for renting boats.

I hope to provide you with the best cocktails during your stay and hope to meet you again in the future. Let's make it an unforgettable experience!

Marc Johnson
